

Healthier and crispy results

The Series 40 AirFry oven provides a healthier alternative to oil frying. You can now enjoy the crunch of perfectly fried food - including your regular favourites as well as adding a tasty crunch to vegetables. For tender insides and crispy outsides with little or no oil.

Product Benefits & Features

Crispy food made simple with AirFry

The AirFry function with the innovative perforated AirFry tray lets air circulate around your food to evenly heat it from all angles. Removing the need for turning, so you can just enjoy the crunch of perfectly fried food.

Double Oven—multitasking made easy

Cook two meals at once easily. With the Double Oven you have the choice of fan cooking, conventional cooking and grilling. So you can bake a cake or roast a chicken at the same time. Making your kitchen adventure a little more convenient.

Say goodbye to scrubbing your oven

Catalytic Cleaning helps stop the build-up of dirt and grease in the oven. This feature automatically begins to work when the temperature reaches 250°C. Getting rid of cooking residue, so you don't have to.

Convection oven, for Even Cooking

The hot air generated inside the oven during cooking is moved around with a fan, so all your dishes receive the same amount of heat. This lets the oven heat up faster, which means you'll get the same results using 20% lower temperatures, saving time and using less energy.

Assisted cooking programs and LED Display make cooking more fun.

Now you can pay more attention to friends and family while you cook. Easy-to-read 2-colour LED display makes it simple to use assisted cooking functions while viewing the time, temperature and progress of your cooking,

- Top Oven Functions:
- Economy variable grill
- Top heat
- Bottom heat
- Main Oven Functions:
- Fan Controlled Defrosting
- Retractable oven controls with LED display
- Economy variable grill
- Oven features:
- Pizza cooking

Product Specification

Colour	Black	Energy consumption, hot air, kWh/cycle	0.77
Energy Rating	A	Power (w)	25
Dimensions (Built-in, mm)	875x560x550	Oven Energy Source	Electrical
Functions	AirFry, Bottom heat, Conventional/Traditional cooking, Defrost, Fast grilling, Light, Moist conventional baking, Pizza setting, True fan cooking, Turbo grilling	Product Type	Double Cavity Built-in Electric Oven
Connectivity	No	Gross weight (kg)	51.2
Total electricity loading, W	4900	Net Weight	50
SteamCategory	No	Tray types included	1 AirFry tray, 1 Dripping pan black enamel
Type of timer min.	LUX	Main Oven - Shelves Included	1 Trivet chromed, 1 Wire shelf chromed
Cavity Size (L)	61	Runners	Grid Runners Easy Entry
Self-Cleaning?	Catalytic	Plug	No
Dimensions (mm) (HxWxD)	888x594x568	Door surface temperature maximum in K - Top Oven	55
Oven knob type	Pop in / Pop out flat with sungrind	Cavity coating	Catalytic
Max power grill - Top Oven	2900	Nø of cavities	2
Max power oven - Top Oven	2750	PNC	944 171 766
Temperature range	50°C - 300°C	EAN number	7332543992270
Largest Surface area	1175	Voltage (V)	220-240
Interior light	1, Back&Side halogen	Required Fuse	30
Energy efficiency index EEI	95.1	Frequency (Hz)	50-60
Energy consumption, conventional mode, kWh per cycle	0.92	Maximum Microwave output (W)	0
		Colour	Black
